

Inside or Outside IR35

who does the liability fall upon?

Everything you need to get ready
for the off payroll in April 2020.

17%

of private sector organisations assume all PSC workers fall in scope of IR35 and are at risk of repeating the same mistakes as some public sector organisations.

There's no need for the same to happen to your business! Seek our advice and we can create solutions for you to save your workforce.

It's time to contact us

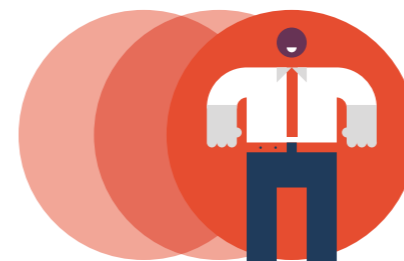

Not understanding the implications of IR35 could be the difference between a trouble-free workforce or a potentially huge business-ending fine.

What does this mean for you?

It means that you should message or call us so we can help you set up a strategic plan and execute it for you. We have helped many other clients and let us do the same for you.

HMRC estimates that non-compliance with IR35 will cost the economy £1.3bn by 2023/24

Many organisations have become idle about making clear justifications to contracts as they think they won't get caught out. We want to emphasise that nothing has changed from an employer point of view and it is in your best interest to make sure that your contractors are operating 'Outside IR35'.

The shift in responsibility

The responsibility now falls on you as a client to determine a worker's IR35 status. At Venquis we can be your advisory board, putting in place a strategy to help anticipate the huge implications that IR35 can have on you.

Our expertise

For the past 12 months we have successfully transitioned over many organisations by advising them on best practices and work processes to help secure they have the right balance of permanent employees and compliant PSC workers.

Are you ready?

It has become increasingly obvious that our clients fall into three groups in terms of their readiness for IR35. We want you to be as prepared as possible for April 2020.

Call us and let us challenge your status quo.

We are a pan-European change and transformation consultancy.
